

Invitation to the ADMA Learning Network Event ‘*Discover where your company can also make a difference*’

A unique opportunity to be inspired by two Belgian Factories of the Future: learn and be inspired by what’s happening behind their doors!

Virtual Visits and Sessions; 06 May 2021 (13.00 – 16.00 CET)

The ADMA initiative (www.adma.ec) is pleased to invite you to experience major breakthroughs from **two high-performing manufacturing companies** (i.e. metal subcontractor [Provan](#) and trailer manufacturer [Stas](#)) that have chosen to increase their competitiveness by means of the 7 integrated transformation areas of the ADMA methodology. In these trajectories, they have progressed to the point where they meet all criteria to be called "Factory of the Future".

They have made smart investments in further automation and digitalisation of their production apparatus and in their employees. As a result, they have **increased flexibility, efficiency and cost-effectiveness** to a level they can keep innovating in a competitive manner also in tomorrow's world, and thus increasingly anchor production activities in Belgium.

The detailed programme:

- 13:00 - 13:05: Introduction
- 13:05 - 13:25: Presentation [Provan](#) (virtual tour)
- 13:25 - 14:10: Breakthrough performances within 3 specific transformations
- 14:10 - 14:25: Q&A
- 14:25 - 14:40: 5G application in the Manufacturing Industry
- 14:40 -14:45: Break
- 14:45 - 15:00: Presentation [Stas](#) (virtual tour)
- 15:00 - 15:45: Breakthrough performances within 3 specific transformations
- 15:45 - 16:00 Q&A

The participation in the events is **free of charge** for the participating companies.

The **registration process for the event is now open!** You can register [here](#). You will then receive the connection details to attend the event.
